DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 3 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Mizuishi et al.

The device and method as claimed is disclosed by Mizuishi et al with a fresh toner supply 4, a recycle toner supply 12, a stirring means 3 for stirring the fresh toner along a first convey path with a first length and the recycle toner along a second convey path with a second length that is greater than the first length, the second path including the first path, and a predetermined potential being applied to the fresh toner and the recycled toner.

Allowable Subject Matter

3. Claims 1 and 2 are allowed.
4. Claims 4 and 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
